Fingerpost Directional Signs - Hooped Top School Signs

Our AS760 range of powder coated aluminium fingerpost systems are ideal for directing visitors or pupils around your site. Manufactured from sturdy 11g powder coated aluminium panels the fingers slide over a 76mm aluminium post and are fixed securely in position with discrete grub screws. The finishing touch is provided by a stylish cast aluminium decorative finial which sits proudly on the top of the post. The finial, aluminium post and aluminium finger blades are powder coated in a durable gloss finish. Finger blades are vinyl signwritten to both sides of the finger and once fitted onto the post can be fully adjusted through 360 degrees.

Our stylish Hooped top school signs are ideal for a variety of uses around your school. Manufactured from 11g (3mm) aluminium sheet and a 76mm aluminium curved post the panel is double sided and has a diameter of 870mm. Both panel and post come as standard with a gloss powder coated finish which is available in a choice of 16 vibrant colours. Unlike some suppliers who supply a similar looking product we use 5 welded fixing points as opposed to their 2 which ensures added security.
